

“My Best Day”

My life is full of mem'ries
And of very special days:
From grade school up thru high school
I had fun in many ways.
But college days were better
Where I gained so many friends;
'Twas there I met my helpmeet
Who was with me to the end.
We ministered together
On an island mission field,
And by God's grace we witnessed
Souls of men to Jesus yield.
God blessed our home with children:
Five in total, girls and boys;
They filled our hearts with laughter
And with many times of joy.
And later came the grandkids--
How we loved to see them grow--
We cherished times when near them
As each other got to know.
Not every day has sunshine:
Through the valley we must go;
But God is still beside us
Even when our bodies groan.

My earthly journey's over
Now, and I'm in heav'n today.
My life was filled with highlights,
But today is my best day!
