

"Are You Ready for that Day"

Are you ready for that day
When views of earth are swept away?
When friends and fam'ly gather by
To pay respect and say goodbye?
Time moves swiftly, will not wait,
So you must act before too late
If there is something you must do;
Rise up with haste and see it through.
Do not leave a thing undone
That must be finished by last sun,
And give your all while you have strength
Your days are numbered, short in length.
